

JJ of Dallas is a wholesale custom embroiderer and screenprinter of brand images and promotional products for businesses. Whether your business is global or local, a consistent brand image is critical in establishing your company's presence in the marketplace and distinguishing your company from your competitors. A brand image can provide a company visibility in the marketplace and provide a key element in the value proposition of your business.

JJ of Dallas uses state-of-the-art digitizing techniques and a Pantone thread matching system to ensure accurate color reproduction of our customer's brands. JJ of Dallas uses only Tajima and SWF embroidery machines and provides sewn samples of each logo before we start to ensure customer satisfaction. JJ of Dallas also provides screenprinting, from simple one-color designs to complex four color processes for our customers. JJ of Dallas treats each customer, big and small, with respect, courtesy and professionalism.

While JJ of Dallas works with companies and groups of all sizes, we have traditionally embroidered corporate apparel for clients of Promotional Products Association International ("PPAI") or Advertising Specialty Institute ("ASI") companies. We are located at 3151 Skylane Dr, Ste 101, Carrollton, TX 75006. Our phone number is 972-866-9866.
